The mission of Hope Ranch is to expand the quality of life through equine-assisted therapy and develop skills critical to future independence. Our vision is to glorify God by integrating community, family and special needs in a faith-based culture.

**Therapeutic Riding:** We offer therapeutic riding, an equine assisted activity, for the purpose of contributing positively to the cognitive, physical, emotional, and social well-being of individuals with special needs.

**Hippotherapy:** We offer occupational, speech, and physical therapy using horses to help patients achieve therapeutic goals while horsing around.

### Who We Are:

We're a non-profit organization providing physical, speech and occupational therapy using horses (hippotherapy).

We've assembled a dedicated network of volunteers with a heart and passion for seeing God's healing come to life with the assistance of horses. It has been proven that horses create a dynamic, three-dimensional movement that cannot be produced in a traditional clinical setting.

Hope Ranch is a member of the American Hippo Therapy Association integrating horses safely and effectively into individualized therapy sessions.
